City of Deltona Outdoor Burn Ban

April 9, 2012 – Effective Tuesday (April 10, 2012), the City of Deltona Fire Department has issued a Burn Ban for the City of Deltona. This Ban will remain in effect until repealed by the City. Unusually high drought indicators, along with extremely dry conditions and a lack of rainfall increase the possibility of wildfires and have lead to the issuance of the burn ban.

The burn ban prohibits all outdoor burning, unless authorized by the Florida Forest Service, including the burning of yard trash, household paper products, bonfires, campfires, warming fires & outdoor fire places. The only exceptions to this burn ban are fires for the purpose of outdoor cooking, only if the cooking fire is within a contained gas or charcoal grill and controlled fires within a Chimenea or a commercially made, elevated and screened outdoor residential fire pit.

Also, the setting of fires to brush or forest, unless authorized by the Florida Forest Service, is considered a violation of the law, and is punishable by a fine, imprisonment, or a combination of both. All open burning permits previously issued by the City of Deltona for residential or commercial sites including air curtain operations and pit or pile burns have also been suspended.
